SENSATIONAL TRIAL IN IDAHO COURTS

Members Of Western Federation Of Miners Charged With Dynamiting And Assassination

Caldwell, Idaho, June 26.—The trial of Charles H. Meyer, William D. Haywood and George A. Pettibone, accused of assassination of former Governor Frank Steunenberg last December, is expected to be a battle royal. E. F. Richardson, of Denver, for many years law partner of Senator Thomas N. Patterson, of Colorado, is to be the leading attorney for the defendants, while in all probability his principal assistant will be Fred W. Miller, of Spokane. Both these men, as well as John F. Nugent, of Silver City, the local attorney of the Western Federation of Miners, of which the accused men are officials, have been spending their time for months past preparing their case and working up evidence on behalf of their clients. They have maintained an office in Boise, although neither of the first two named has any business there outside of the famous assassination case.

Some weeks ago, also, it was stated that Congressman Bourke Cockran, of New York, and Clarence Darrow, Chicago, were to be here to assist with their master minds and their eloquence in the fight for the defence. The other attorneys for the defence have stated that Darrow is coming, but there has been no confirmation of the report that Cockran would be here.

The leading attorneys for the prosecution will be J. H. Hawley and W. E. Borah of Boise.

O. M. Van Duyn, the prosecuting attorney of Canyon county, is a very young man—probably the youngest man ever elected to the position of county attorney in Idaho. He naturally will not take the leading place in so important a matter as the prosecution of the men charged with the conspiracy to assassinate Steunenberg. W. A. Stone, of Caldwell, a close friend of the former governor, will assist the prosecution by his counsel during the trial.

It is, of course, not known just when the actual trial of the accused man will begin. There will be some preliminaries to be disposed of in the shape of motions by the defence and matters of that kind, and a jury must be summoned before the trial can begin.

Probably the feature of the trials will be the testimony of Harry Orchard and Steve Adams, the two men who have confessed to a part in the conspiracy to assassinate Steunenberg with a bomb, and who have implicated the miners' officials. The confessions of these two men have been closely guarded by the officials, who have been conducting the prosecution, including Governor Gooding, Detective McParland and the principal attorneys, but considerable portions of the story told by Orchard especially have leaked out, owing to the fact that it was used as the basis upon which the extradition was granted.

WILL CASE IN COURT

Action to Restrain Imperial Bank from Paying \$12,000 to Mary Spence, Left Her by Thomas Hourston

In the Supreme Court this morning the case regarding the estate of the late Thomas Hourston was under consideration. The plaintiffs are Mr. Short, of the firm of Short, Cross, Biggar and Ewing, and Rev. Dr. McQueen, executors of the estate of the late Thos. Hourston. They ask to restrain the Imperial Bank from paying all or part of some twelve thousand dollars to Miss Mary Spence, in whose favor the will of the late Thomas Hourston was changed by him while allegedly in a state of unsound mind. Mr. Biggar appeared for the plaintiffs, N. D. Beck, K.C., for the defendant, Mary Spence. Expert medical testimony was submitted to show that Hourston was not in a state of sound mind when the transfer of the money in the Imperial Bank, in the month of February, 1905, was made to Mary Spence.

No decision was reached in the case today.

The case has occupied the attention of the court for two days and will be continued this afternoon.

SERIOUS PROBLEM FOR

Montreal, June 26.—Like several other fraternal insurance societies, the Ancient Order of United Workmen finds itself confronted with the problem of how to meet the death claims, and also how to meet a debt of \$2,500,000 incurred for death claims paid in advance of dues collected. For some days this matter has engrossed the attention of the supreme lodge of the order now in session here, and its solution has not yet been found.

CUTTING ALBERTA ALFALFA. Lethbridge, June 26.—Cutting the first crop of alfalfa has begun and it is an excellent yield.

WRECK AT TORONTO CROSSING.

Toronto, June 27.—Five freight cars were derailed at the Queen street crossing, blocking the main line of the Grand Trunk for three hours and street traffic for over an hour and causing property damage to the extent of \$5,000. A broken axle was the cause.

EXCURSION FROM RED DEER. Arrangements have been made by the Exhibition Association with the C. P. R. for a special excursion to be run to Edmonton from Red Deer on July 2nd, the first day of the fair. Rates and time of leaving and return will be arranged before the week closes.

MATCHED RACE. Another matched race has been arranged to take place on the track at the exhibition grounds this afternoon, between two local gallopers, Twyford's bay mare and Mead's buckskin.

EARTHQUAKE IN BRITISH ISLES

South Wales Shaken by Trembler, which Broke Chimneys and Wrecked Weak Buildings

Cardiff, Wales, June 27.—Several earthquake shocks were experienced through the South of Wales today. Houses rocked and many of the cheaper ones were considerably damaged. Hundreds of chimneys fell, pictures were shaken from the walls, occupants of dwellings were thrown to the ground and people fled from their houses, shrieking in panic, with visions of the San Francisco disaster before them. Though there were many narrow escapes from falling chimneys and copings, there were no casualties so far as is known. Shocks were also felt at Bristol, Ilfracombe and elsewhere. They were accompanied by loud rumblings.

ELECTRIC STORM IN CHICAGO.

Chicago, June 27.—A thunder storm which passed over the city this afternoon did considerable damage to houses and barns on the north and west side of the city. thousands of people seeking relief from the heat in Lincoln park were thrown into a panic and several knocked insensible when three terrific bolts of lightning followed each other in quick succession.

STAMPEDE IN NEW BRUNSWICK.

Fredericton, N.B., June 27.—Men boring a well for the Intercolonial railway at Chatham Junction have struck gold. There was a rush to the crown lands office for areas. Chatham parties took 200 acres, Monckton 50, and I.C.R. employees 70 acres.

A GAY LOTHARIO.

New York, June 27.—When Stanford White fell on the Madison Square roof his reputation fell with him. That is, the reputation with which he was credited by the great public, for among devotees of New York's gay side he was known as a voluptuary libertine and a man who for years had pursued with avidity the coarse and darker pleasures of the city. White had a private room for months until he was asked to vacate it, in a popular restaurant building. He was a leading spirit in a club whose objects were doubtful and he was the president and ardent promoter of "the chorus girls' club," having for its primary object only what members choose to reveal.

UNPRECEDENTED CROP PROSPECT

Bulletin Report of C.P.R. Shows that this Year's Crop Will be Greatest Ever Known

Winnipeg, June 27.—The C. P. R. crop report, just issued, bears out the optimistic stories which every traveller brings home of the condition of grain in the prairie provinces. The bulletin is most encouraging and shows that crops are in excellent condition throughout every section of the west. In fact there is not one district which gives a depressing report. Weather conditions have been of the best, although a few sections have had weather that was a little on the cool side. Several points report that crops are a week ahead of last year. A remarkable growth is reported at many points. 9 height of 41 inches is what Chatter boasts. Around Brandon and Portage the crops are particularly good. Morden reports that wheat is beginning to head out. Rapid growth is seen in the bulletin from Larivière, which says that the wheat has doubled its height in the past week. Saskatchewan reports are as bullish as those from Manitoba and the prospects are such as to make the heart of every westerner beat faster.

BIG INCREASE IN IMMIGRATION.

Ottawa, June 25.—The total number of immigrants who arrived in Canada for the eleven months ending May last were 151,093. Of these 102,251 came by ocean ports and 50,842 from the United States. During the same period last year 89,766 came by ocean ports and 37,176 from the United States. The increase for the eleven months from all quarters was 26,131, or a little over 20 per cent.

WHEAT HEADING OUT AT MORDEN.

Morden, Man., June 25.—The wheat commenced heading out on the farm of W. Wolkof, at Wakeham, last Wednesday, and on the farm of W. Lightbody, at Nelson, on Thursday, and at present a good acreage is shot out. This is the earliest known here for many years.

CROMPTON A HEAVY DEFAULTER.

Medicine Hat, June 25.—The hearing of Geo. P. Sanderson, of Wetaakwin, former Union Bank employee, charged with embezzlement, opens Tuesday morning. Sanderson moved from Medicine Hat to Edmonton last August, and lost his position the following month. He has been engaged in the wheat business in Wetaakwin all spring, and Crompton is known to have been with him on the 16th June. Certain discrepancies in the books have been revealed in the search which is now going on, and Sanderson is alleged to be implicated to the extent of \$1,200. The shortage it is now stated will run up into thousands and the work was so cleverly covered that but for Crompton's sudden disappearance it might not have been discovered for years. The default on the bank dates back to 1903.

MONOPOLY CONTROLS CHICAGO GRAIN TRADE

Collusion Between Elevator and Railway Men--Many Instances of Discrimination

Washington, June 26.—Senator La Follette today called up his resolution extending the scope of the enquiry now being conducted by the Interstate Commerce Commission under the Tillman-Gillespie resolution, so as to have it include the transportation and storage of grains. Speaking in support of the resolution, he said that the testimony taken by the commission indicates a joint ownership by the railway and elevator companies, to the detriment of the farmers who are entitled to a free and open market. He gave the names of individuals and corporations which had secured such privileges as to give them monopolies among western railroads, the list given including the Chicago and Rock Island, to Chas. Counsellman; The Chicago, Milwaukee and St. Paul to The Armour Elevator Co.; The Atchison, Topeka and Santa Fe, to the Richardson Co.; the Union Pacific to the Peavey Elevator Co.; Chicago and Northwestern to the Bartlett and Frazier Elevator Co.; Chicago, Burlington and Quincy to the Armour Elevator Co. He then quoted various statements to show that the railroad companies favored some elevators to which they were friendly, and discriminated against others who are not so well regarded by them, with the result that the price of wheat to the producers is far below the market. In conclusion he said practically all the grain shipped into Chicago over any one line, goes to one dealer, and expressed the opinion that these wholesale dealers are closely allied among themselves, thus constituting a monopoly of the entire grain trade of the city. He said he had personal

knowledge of many instances of discrimination in favor of the line elevators. he result was an unfair division.

KILLS THISTLE AND MUSTARD

Kenosha, Wis., June 22.—The discovery was made under extensive experiments by the Agricultural Department of the University of Wisconsin, that spraying of sulphate of iron over growing crops destroys the seed of the Canada thistle and wild mustard, the two greatest pests of farmers, and will result in increasing the value of farm lands twenty-five per cent. A spraying machine from Germany sprays an acre at a net cost of fifty cents.

STURGEON NOTES

The grubs have caused great loss to the farmers in Sturgeon Valley. Perhaps one-fourth has been eaten out and re-sown to feed grain.

A very successful social was held at the Methodist church last Thursday evening and upwards of thirty dollars netted for furnishing the parsonage.

The various branches of the Society of Equity are arranging for a monster picnic at Morinville on July 18. A large meeting of representatives from the different unions was held at Nainoa last Friday night. They have arranged a great program of attractions.

Mr. Short of Dugh, is making good progress with his house. The rifle association has again begun operations and two "shoots" have been recorded.

\$28.00 per acre, 320 acres, 8 miles from Edmonton; splendid house. Terms.

SENSATIONAL TRIAL (Continued From Page One)

dition of Moyer, Haywood and Pettibone was asked of the governor of Colorado, and a larger coterie of officials had therefore to be taken into confidence regarding his confession.

Practically nothing has been given to the public regarding the Adams confession, however, beyond the statement by Governor Gooding at the time the confession was announced, that it was "more sweeping than that of Orchard," and embraced the story of some 26 murders, besides other crimes which were laid at the door of the "inner circle" of the miners' organization.

The confessions of these two men around which, it is commonly believed, revolves practically the entire case of the prosecution, have been verified at various points, and it is understood that they will be attacked by the defense at other points.

MINING TOWN BURNED.

Sandon, B.C., June 26—A fire started about 10.45 a.m. yesterday at Archie MacDonald's house, through his son playing with matches in a bedroom. The fire got a good start before it was discovered, spreading to adjoining houses before the firemen could get to work, and it had got such a start that they were unable to stop it at the Cody road, and it nearly baffled them down towards the city; only for a favorable wind they would have been unable to do so.

All the dwelling houses on Cody road from H. F. Pound's two houses to William Davidson's, M.P. P., are completely wiped out, fifteen in all, with the loss of all furniture and contents. The fire was checked at McDonald's cottage from going further up the gulch by a bucket brigade.

About 1.30 p.m. the wind changed, and blew down on the town, which further endangered it, but with every precaution taken there was little danger at six o'clock of the town suffering further loss. The fire is now confined to the hillside, and going up to the summit.

Very little insurance is carried on the property destroyed.

SURVEYORS AT WORK.

Canadian Pacific Railway surveyors commenced work on the Strathcona this morning. They lay out the line for the spur from the main line of the C. & N. R. to the embankment, where the approaches of the high level bridge will commence.

The surveyors announce that the company will commence the construction of the piers and abutments as soon as the water in the river reaches low level again.

DEPARTMENT OF AGRICULTURE AT THE FAIR.

The Department of Agriculture has adopted a novel scheme of assisting the various exhibits throughout the Province and of presenting instruction along certain lines.

It will have a large tent at each fair containing a working dairy when demonstrations will be given illustrating the principles underlying the operations of the cream separator and the churning and working of butter. Daily demonstrations will be given so that everyone wishing to become acquainted with dairy work may have an opportunity to do so. Anyone having difficulties which they have met with in running a separator, or in churning, should come prepared to obtain enlightenment.

The Department will also have an exhibit of noxious and other weeds and samples of a number of the most troublesome weeds in various stages of growth so that one may easily learn to recognize them. His exhibit will be in charge of the chief weed inspector and anyone having samples of weeds which he desires to have identified, should bring them to the weed tent.

In another part of the tent a poultry expert will have present articles for fattening poultry and other profitable appliances which should be used in poultry raising. He will also have plans of model poultry houses and charts illustrating many facts in connection with the poultry industry. This should be a most important exhibit as there is no finer country in the world for raising poultry than right here in Alberta. This work will be in charge of A. W. Foley, of Bowmanville, Ont., who has had charge for years of one of the Dominion Government Poultry fattening and breeding stations.

Another novel feature of the Department's exhibit will be given by Miss Edith G. Charlton of the Buffalo Public Schools. Daily demonstrations will be given illustrating the principles underlying the cooking of the common things we eat. Ladies should be especially interested in this and are cordially invited to attend the demonstrations.

These demonstrations will be of an instructive character, and all should aim to spend some time at the Department's tent, meet the officials in charge and learn of the work the Department is trying to do to improve and advance farm work and farm life in the province.

STRATHCONA BONUSES C.P.R.

By-Law Passed by Ratepayers Yesterday to Buy Site at Cost of \$37,000

The vote in Strathcona yesterday on the bylaw to bonus the C. P. R. was overwhelmingly in favor, only three voting against the bonus to 143 in its favor.

By the agreement between the railway and the city, the Canadian Pacific agrees to establish shops, yards and terminals there and make the city on the south side a divisional point on its north and south system, furnishing employment for a large number of men. The city undertakes to purchase 72 acres of land in the south east part of the town at a cost of \$37,000, which it will turn over to the Canadian Pacific. The company already has a block of land adjacent, which added to the plot that the city gives, will give them altogether 100 acres in section 17. The company agrees to commence construction on their shops within a month. The park site bylaw was defeated by 89 to 43.

MILLIONAIRE CRIMINALS.

If you are going to be a criminal it is safer to be a millionaire criminal than a highwayman. The men who held up a train in British Columbia have been sentenced to life imprisonment in the penitentiary. The men who for years have been systematically poisoning human blood on two continents with diseased meat are still permitted to live in million dollar mansions, with their names in the society columns of the newspapers. The Chicago millionaire meat packers have shattered thousands of human lives with disease, but the proof is not available. The only disease coming to the millionaire criminals out of this iniquity is a stricken conscience and unfortunately that has been given chemical treatment. The three poor devils who had adventure enough in their blood to hold up a train without a single loss of life, are given what is perhaps worse than death. We say that it is swift justice. What kind of justice shall we allege in the case of the millionaire blood poisoners of Chicago? If we had such in Canada would they still be permitted to figure in the society columns of newspapers? Or would they be jailed where even criminals are fed upon clean meat?—Canadian Graphic.

Ottawa, June 27—The house was busy all day today with the Sunday observance bills. Considerable discussion as to promoting shooting at targets, etc., took place when the clause was finally framed, providing that no one could fire a gun in any place to disturb worshippers on Sunday. A big debate was precipitated by the clause of the bill exempting Jews and Seventh Day Adventists from prosecution for observing Sunday if they observed the seventh day. Several amendments were made widening the clause, all of which were defeated and the original clause was then struck out on a vote of 37 for, to 79 against. Laurier and Borden, both leaders, voted for this clause in the bill.

AUCTION SALE.

The following City property will be exposed for sale by auction in the Council chamber, Edmonton, on Friday, June 29th, inst., at 8 p.m.: Lot 24, Block 16, R. L. 10, Fraser avenue.

CORRESPONDENCE INVITED

Edmonton Branch : H. A. GRAY, Agent

LOCAL.

order to reach the News or Editorial rooms of the Bulletin, ring up Phone No. 450.

—“The Gaiety Girl,” by Pollard's Lilliputians, at the Hotel rink this evening.

—There is a meeting of the License Commissioners in the city council chamber this afternoon, commencing at 3 o'clock. Three applications are up for consideration.

—The funeral of Wm. Mitchell, who died at his home near Belmont yesterday, will take place this afternoon, Rev. Jas. Douglas, of Edmonton, officiating.

—Mr. P. J. Worsley, B.A., LL.B., formerly of the law firm of Robertson, Dibleson & Worsley, has opened an office for the practice of his profession in the old post office building.

—The public schools of the city will close on Friday afternoon for the usual summer holidays. Examinations in the various grades are being held this week. The entrance examinations at the high school concluded yesterday.

—As Mrs. Rev. Conolly, of Naino, was walking past the Western Coal Co.'s office this company's sign, which was hanging against the wall, blew down, striking her on the head and shoulder and inflicting a rather severe bruise. The glass she was wearing were knocked off and broken.

—The Boys' Brigade of All Saints' church will hold a special drill this evening. Arrangements are being made to have the brigade inspected by Col. McDonnell, at the C. M. R. camp to-morrow evening. A full attendance at the drill this evening is required.

—Robert McLellan, of Winterburn, brought to the city yesterday, a sample of wheat from his farm. The stock was two feet and one half in length, and Mr. McLellan says that the wheat for some distance around his farm is equally well advanced, in spite of the action of the cutworm. The recent warm weather has served to bring the wheat up rapidly and strengthen the stalks.

Arthur Desjardis Gets Six Months

Arthur Desjardis was charged yesterday afternoon in the police court before Magistrate Wade with the theft of a watch and chain from Malcolm McKinley, who lives at Stony Plain. McKinley was lying on a lounge at the Jasper House when Desjardis came up to him in a friendly way and snatched the watch from his waistcoat. Then it is alleged he ran out. McKinley followed, calling for his watch. John O'Leary, bartender at the Jasper, said he saw the accused run out with McKinley after him. O'Leary and McKinley followed Desjardis, found him coming out of Fraser's lumber yard, caught him and handed him over to the police. The case was adjourned until 8 p.m. when the accused pleaded guilty to stealing the watch. He came again to-day before Magistrate Wade, who on account of it being the first offence sentenced him to six months hard labor.

THE KING OF SPORTS.

Man has been attending horse races for thousands of years and will probably continue to do so centuries after the automobile shall have been succeeded by some other wonderful invention, says the Portland Oregonian. The horseless age will never appear if the coming is dependent on the automobile or any other inanimate invention supplanting the horse in the affections of the people. The beauty of his line, his arch neck and quivering nostrils, his haughty movements all appeal to the eye to-day even as they did thousands of years ago. Men with sufficient funds to gratify their pleasures will continue to pay fabulous prices for horses until the end of time.

NO MEETING

The announcement made yesterday that a meeting of the Athletic Association would be held on Friday evening, was an error. No meeting will be held this week, as reports, etc., are not quite ready. The meeting will probably not take place until after the exhibition.

UNNECESSARY REVISION

The court of revision for Winnipeg, has completed its labors, and submitted its report to the city council. The report estimates the population at 101,057 and the total assessable value of property in the city at \$50,511,725 and exempted property at \$15,125,000. The school population of Winnipeg is 16,776 and the buildings of the city are estimated to be worth \$26,546,960. Every item in the assessors' report shows a large increase over last year.

SOCIAL & PERSONAL

Mrs. Fraser, of Winnipeg, is visiting her sister, Mrs. Dr. Nicholas, Sixth street.

“Cookie” Gauvreau, of the C. P. R. telegraph office, is on a holiday trip to the coast.

Miss Thom, of Nelson, is visiting her brother, Mr. J. M. Thom, of the Provincial Government offices.

Hon. W. H. Cushing, Minister of Public Works, was one of the guests at a “stag” party given by Hon. Senator McMullen in Ottawa last week.

Mrs. Thomas Hazlett, of Allan Park, Ont., is spending a few weeks with her daughter, Mrs. S. Evans, wife of the chief of the police department of

this city.

Mrs. Woods was one of the guests at Mr. S. A. Blumberger, B.A., M.D., medical superintendent of the new hospital at Vegreville, in town to-day.

a tea given by Mrs. R. L. Borden during her recent visit to Ottawa. Mrs. Woods will not return to Edmonton for some time.

F. N. Leavena, editor of the Bolton Enterprise, of Bolton, Ont., is in the city. Mr. Leavena has been making a tour of the West and is much pleased with this city and the development of the two new provinces.

An error occurred in Tuesday's Bulletin in connection with the garden party of Mrs. Norquay, in stating that Clarke's orchestra furnished the music. It should have read Harper's orchestra. This orchestra has been but lately organized and consists of Charles H. Harper, pianist, Mr. Riley, violinist, and R. Hutton, flute.

Miss Sarah A. Brickman, having returned after very successfully completing her course at college, has taken a position in the law office of Messrs. Rutherford & Jamieson, of Strathcona. She was accompanied by her aunt, Miss Templeton, of the Institution for the Deaf and Dumb, Belleville, Ont., who will spend the vacation with her sister, Mrs. E. A. Brickman, of East Edmonton.

CITY OF EDMONTON.

To Grading Contractors.
 Tenders are invited for the work required in forming boulevards on Twelfth street from Victoria avenue southward to the top of the hill.

Also for gravelling the roadway and the requisite grading of Sixth street from Jasper avenue to Saskatchewan avenue.

Plans and specifications may be seen and forms of tender obtained at the City Engineer's office.

Tenders addressed “City Commissioners,” accompanied by the deposit called for, to be delivered not later than Monday, July 2nd, 1906.

GEO. J. KINNAIRD,
 Secretary-Treasurer,
 Edmonton, June 27th, 1906.

CITY OF EDMONTON.

Tenders are requested for about six miles of concrete and pipe sewers and about four miles of water pipe laying.

Specifications and plans may be seen and forms of tender obtained on application to the City Engineer, Edmonton.

Tenders (accompanied by marked checks for amounts called for in the Forms of Tender) addressed “City Commissioners, Edmonton, Alta.” to be delivered to the undersigned not later than Monday, the 2nd day of July next.

GEO. J. KINNAIRD,
 Secretary-Treasurer.

THURSDAY, JUNE 28, 1906.

PETERED OUT

The recent investigations at Ottawa have petered out. This is not the first time that the opposition has gone on fishing expeditions without catching even a sucker. Never was there a time in the history of Canada when the people could the better congratulate themselves upon having clean government. It is the easiest possible thing to make general charges without assuming any particular responsibility, and a few members of the opposition, particularly Mr. Foster and Mr. Bennett, have a weakness for this kind of thing. With memories of the days of plunder prior to 1896, with the flesh of office still sticking between their teeth, they are hungering for another such opportunity and would like to smell out a way to power through some scandal.

So long as the opposition pursue this course their prospects for a long, though not very useful, term in opposition are rather good.

The Arctic expedition affair, in which was promised great revelations, ended in a few pounds of tobacco being purchased rather dear. It must be disappointing to Mr. Foster not to run across a Curran bridge or a good live McGreevy contract.

COMMENDABLE

The action of the city council in refusing to support the granting of a liquor license to restaurants in the city is highly commendable and the aldermen who favored such licenses were not supporting the best interests of this city.

The liquor traffic should be carefully regulated and restricted, and experience in other provinces have gone to prove that the limiting of it to hotel licenses has worked out best. With some restaurants it might not work much evil, but the danger of making saloons of these establishments is too great for the city to take the risk.

RED DEER

Red Deer, Alberta, June 27.—Pitcher Chauncey Moore will have abundant chance to show his ability or otherwise, as the case may be, within the next few days. On Thursday the team play Wetaaskwin at Wetaaskwin and return here Friday noon to meet the Capitals in an afternoon game. From Friday to Monday they will recuperate, when they will meet Calgary and probably a couple of other teams for the purse put up by the sports committee. Tuesday they go to Edmonton to take part in the tournament there and they are also listed for the Calgary tournament.

Red Deer sports a real live automobile now. Last week some of the local disciples of Isaac Walton went motoring in great style to a suitable spot in which to pursue the sport of the rod and gun. We are given to understand that though the motor returned to town behind a strong able-bodied horse, the afternoon's amusement was not by any means a failure.

Following is the line up of the bunch of ball tossers billed to meet Wetaaskwin Thursday afternoon: P. Chauncey Moore; C. Forbes; B. Slinger; B. White; A. S. Edgington; B. Brazier; L. Northey; C. E. Handford; R. F. Mann; spare, Houston. J. Harkness, manager, and B. Cooke, umpire, will accompany the team.

Excavation has been commenced for the completion of St. Luke's church. The stone tower is already on the ground.

R. Slinger has taken a position in the Shoppers & Co. lumber yard.

W. B. McLeod has resumed his position on the post office staff.

C. L. Crawford, formerly of the Bank of Commerce here, returned on Monday's train from Winnipeg. He will be one of the staff of the Northern Bank, which opens here next week.

C. B. W. Pooley an bride returned from Edmonton on Tuesday evening's train.

The Red Deer steam laundry and bath house opened for business Saturday night.

TERRIFIC EXPLOSION AT AMHERSTBURG.

Amherstburg, June 27.—Twenty tons of dynamite exploded today on a dynamite island opposite this town. The force on the mainland was terrific, breaking plate glass windows in stores and windows in residences. Two men in a boat near the scene were blown up and nearly drowned. Both were badly burned. The dynamite was being used on the American government work at Detroit.

MR. ORR IS AMBITIOUS.

Toronto, June 27.—Manager Orr, of the industrial exhibition, is figuring upon having King Edward open the fair.

A TRIUMPHAL PROCESSION FOR EDWARD.

London, June 27.—The London Standard comments on the eagerness with which Canadians are now discussing the possible visit of King Edward, and predicts that if the King accepts the invitation, his progress across the continent would be a triumphal procession of which history could furnish no parallel.

The Legion of Frontiersmen

The general council of the Legion of Frontiersmen sends out the following statement for publication:

With preferential tariffs, imperial penny postage, and an intercolonial cable service, Canada has definitely taken the lead in promoting the development of the empire. It is quite natural, therefore, that the new scheme of the Legion of Frontiersmen should be of Canadian origin. The founder, Roger Pocock, based the idea underlying the Legion upon his experience during many years work in some thirty trades in the Canadian wilderness. Among the first adherents to the cause was Reg. No. 1, of the Royal N. W. M. P. Colonel S. B. Steele, who commanded Strathcona's Horse. Since then Canadians have been very numerous and active among the workers of the Legion.

The training will not be by drill, which produces discipline for fighting, but by competition, which produces the initiative required for the intelligence service, and the commands competing one with another in all warlike exercises, will not only find their own leaders, but will select the best men for active service.

As men captured in the field out of uniform are killed as spies, a uniform will be necessary, based on the customary dress of the frontier; hat, kerchief round the neck, shirt and overalls, which is a cheaper and better dress

than the usual military kit.

With permission of the authorities the men will train in shooting on rifle club lines, and in time the corps will develop active service contingents, equipped, armed and mounted, either for home defence or for the general defence of the empire.

So it is hoped that the Legion will produce a unit of local guides and interpreters, for every possible seat of war: a strong corps of frontier scouts a corps of sharpshooters to support them, and a pioneer branch to handle every known means of transport, whether packhorse, railroad engine, motor car or boat. The crops of voyageurs supplied by Canada for the Nile campaign is such a unit as the Legion will be able to supply in any emergency.

So the work of the Legion in the field will be to guide the field force, to watch the enemy's movements, to strike with lightning raids behind him, and blow up his lines of communication, but not to fight him, because that is the work of the army.

The council of the Legion has headquarters at 6 Adams street, Adelphi, London, and is trying to secure an honorary organizer in every Canadian district.

Patriots are offered the chance of rendering magnificent services to the empire.

Dr. Torrington Here

Dr. Torrington, of the Toronto Conservatory of Music, and organist of the Metropolitan church, Toronto, arrived in the city last evening to preside over the musical examinations at Alberta College today. This evening the final recital of the students will be held in McDougall church, when diplomas and scholarships will be presented. On Friday evening Dr. Torrington will give an organ recital in McDougall church under the auspices of the Epworth league, the admission to which will be 50 cents. Dr. Torrington, although well up in years, is of widespread fame as an organist of exceptional ability.

CZAR'S CHANCES LOOK BLACK.

St. Petersburg, June 27.—The men composing the Probojaska regiment are holding meetings daily at which sympathy for Socialists was openly expressed. Agitation is also spreading to the Semenov regiment, stationed at St. Petersburg.

Brandon, Man., June 25.—The Brandon Electric Light Company announced today that after July 22 their rates for both light and power will be cut in two. Mr. Geo. Paterson, the manager, stated that the company have been considering the question since the completion of their high dam at their water

power plant. The results have been so satisfactory that the rate for lighting will be reduced from 20 cents per kilowatt hour to 10 cents, with a discount of 5 per cent. for prompt payment. Power rates will be reduced from 12½ cents to a rate of 2½ to 10 cents per kilowatt hour, according to amount used. While the new rates for power and light will be welcomed by citizens generally, they will undoubtedly also result in great benefit to the city in the way of an added inducement to manufacturers to locate here.

If the above despatch is correct Edmonton no longer holds the palm as the cheapest electric town in the west, as the Brandon rates for both power and light are cheaper. The Brandon company guarantees that their highest charge for light will not be over 10 cents per k.w., which is 2 cents cheaper than Edmonton's highest, and gives a discount of 10 per cent. on \$30 accounts, which is equal to Edmonton's lowest rate, while big accounts like \$100 and over, get 20 to 25 off with an additional 5 off for

Exhibition Accommodation

There are now in the neighborhood of 100 race horses at the grounds, and more are expected. There are 104 stalls at the grounds, and the chances are that these will be filled up before to-morrow night.

Entries of cattle, sheep, swine and fowl are particularly numerous this year, and are coming in fast. The increased accommodation for stock will be none too great for the number of entries.

The grounds present a scene of activity this week. Carpenters are at work constructing booths and in the main building preparations are well under way.

Exhibitors in the exhibition who have not received their entry cards may obtain the same at the secretary's office until Monday, when they may be procured on the grounds.

The escort which will attend His Honor Lieutenant-Governor Bulger when he opens the first Provincial Exhibition on Monday next will be formed from the regiment of Canadian Mounted Rifles.

NEW YORK DENTISTS

MAGLEOD BUILDING, JASPER AVE.

Best quality of work and materials, with a written guarantee on all work. Lowest cut rate prices. While the matter of cost is an important consideration when having dental work done, it is secondary to quality. You get both quality in full measure and the lowest cut rate prices at our parlors. Every patient receives the attention of a skilled Graduate Dentist who makes a specialty of one particular branch of dental science.

All Work Is Done Without Pain.

Out-of-town patients when writing in advance for appointments can have work done while in the city for the day.

We wish to inform the public that we have added to our dental staff

JINGLES AND JOKES BY THE PHONEYMEN

IF YOU WERE A BOY.
If you were a boy this morning,
I wonder what you would do.
Was ever a day more perfect
Was ever the sky more blue?
I'm speaking to you, grave senior,
I noticed you as you went,
Hot-footing it into the city,
To add to your cent per cent.
I noticed your soter manner,
Your very important looks,
And I noticed your boy beside you,
The school boy with his books
I saw—and you saw—where the river
Sweeps down to the "swimmin' hole."
Another boy playing "hooky"—
A boy with a fishing pole.

If you were a boy this morning,
I wonder what you would do.
More.
I saw you stooping to whisper
A word to the boy with you
It seemed to me then you told him
That the truant boy was a fool,
That nothing ripens manhood
Like the moments spent in school
With the fresh blue sky above you
And the green fields under it,
How dare you utter such nonsense?
O! liar and hypocrite!

A boy with a heart and soul,
You'd be, in spite of a licking,
With the boy with the fishing pole.

Bad mortar, it seems, was the real cause of the fall of San Francisco, the earthquake being guilty of nothing more than contributory negligence.

The Russian Ministry may resign in a body, the bomb throwers having done much to encourage the idea that it is better to quit that way than in small pieces.

A skeleton has been found in a New Brunswick cave. Had this occurred in Nova Scotia it would have at once been suspected that the remains of the Con party had at last been discovered.

The auto sarked "Honk honk!" and roared.
The farm birds woke awake:
The gander sighed, "Ah, there's a gander.
Like mother used to make.

THE SQUAREST WORD.
The squared word in any language is the Latin word, which, in connection with the three other Latin words, item, met, and emit, can be read, when written as a square, in every possible direction, forward, backward, down and up, thus:

T I M E
I T E M
M E T I
E M I T
A HUNGRY WOLF

Rochester Post-Dispatch
A red-faced man was holding the attention of a little group with some wonderful recitals.

"The most exciting chase I ever had," he said, "happened a few years ago, in Russia. One night, when sleighing about ten miles from my destination, a discovered, to my intense horror, that I was being followed by a pack of wolves. I fired blindly into the pack, killing one of the brutes, and to my delight saw the others stop to devour it. After doing this, however, they still came on. I kept on repeating the dose, with the same result, and each occasion gave me an opportunity to whip up my horses. Finally there was only one wolf left, yet on it came, with its fierce eyes glaring in anticipation of a good hot supper."

Here the man who had been sitting in the corner burst forth into a fit of laughter.
"Why, man," said he, "by your way of reckoning, the last wolf must have had the rest of the pack inside him!"
"Ah!" said the red-faced man without a tremor, now I remember it did wobble a bit."

WHERE HARMSWORTH MAKES HIS PAPER.

Silently, steadily, and with the usual British characteristic of being "There with the goods," the Harmsworths are carrying out their enterprises in Canada in connection with the pulp, paper and publishing industries. The Ontario Gazette, of June 9th, announces the organization of International Publications, Limited, which is particularly in this issue under the heading of "New Companies." This is the Canadian branch of the London, Harmsworths, and just how far they intend to push their business in Canada is not known to anyone but the men "inside." British firms invariably prefer to carry on their large undertakings without much publicity in the early stages, and the Harmsworths are no exception.

Good progress is now being made at their new town of Grand Falls, New Brunswick. The town has been surveyed, streets laid out, and areas for churches, schools and public buildings set apart. The manager's residence, a handsome log cabin, has been built on a bluff overlooking the town, and offices for the staff have also been built. Over 150 men have been employed all winter, logs to saw 2,000,000 feet timber have been cut and a mill 130 feet by 70 is being built, in which these will be sawn, and also the timber for building the pulp mills. The site of these mills seems to have been designed by nature and within three years it is expected the town will have a population of 3,000. Millertown, which is about thirty miles distant, will continue to be the logging centre, and will support 2,000 people when the mills are completed.

The Harmsworths have used good judgment in all their undertakings, and their advent to Canada would seem to be at the proper time—Pulp and Paper Magazine.

CONTINUED SUCCESS OF POLLARD JUVENILES.

"The Geisha," or the tale of a tea house was on the boards last night at the Thistle theatre and drew a large and fashionable audience. The play is one of the best in the repertoire and gave each of the little artists a chance to display their fairy-like and inimitable talent.

As in all the plays of this company one of the distinctive features was the beautiful and gorgeous costumes, especially of the Japanese girls.

Miss Eva Pollard again delighted her hearers with her songs and dances even to a greater degree than the night before, as the Belle of New York, while Miss Daphne Pollard, in the part of Molly Seymour, was equally interesting whether in the role of an English or Japanese lady and made a decided hit in her simulation of Punch and Judy. Master Teddy McNamara sustained interest and fun from the first with his jokes and clever dances. Possibly the most interesting character was Master Fred Heine, as the Marquis. It was marvellous to hear the haughty speeches, the quick retorts, and the masterful self-confidence of the little actor of eight years.

Taken all together, in dancing,

costumes and genuine acting, the Pollard people put as good a show as can be seen in any of the theatres in America.
Tonight the Giddy Girl will be put on.

PROMPT SETTLEMENT.

Brandon's lowest power rates are below Edmonton's. The Brandon company uses water for eight months of the year, but pays \$7 for coal for the remainder of the year. Edmonton pays \$2.25 for coal all year round.

GRAIN PRICES.

No. 1 northern, 82½; No. 2, 80; No. 3, 77; No. 2 white oats, 56½; No. 3 barley, 43½; No. 1 flax, \$1.07.

WITHHOLD AMERICAN BEEF.
London, June 26.—Mr. Buchanan, financial secretary to the war office, announced in the House of Commons yesterday that orders had been issued to withhold all issues to the army of American brands of preserved meat until Lieutenant-General Hobbs, the officer despatched to the United States to enquire into their character, has reported.

AUTOMOBILE GARAGE.
Clair Watts, a well-known chauffeur in the city, has taken out a permit for an automobile repair shop, the erection of which was commenced yesterday on Third street north of the Hudson's Bay stores. The building will be frame, 35 x 90. It will have a capacity for 15 automobiles, and will be equipped with all the necessities for automobile repairing, cleaning, charging, and a general boarding-place for automobiles. A circular floor will be installed, also a wash rack.

JUDICIAL SALE OF FARM PROPERTY IN THE SUPREME COURT OF THE NORTH WEST TERRITORIES, NORTHERN ALBERTA JUDICIAL DISTRICT.

PURSUANT to the order dated the 27th day of June, A.D. 1906, given by the Honorable Mr. Justice Harvey, one of the Judges of the Supreme Court of the North West Territories.
There will be offered for sale at the office of The Seton Smith Company, at the City of Edmonton, by Robert Smith, Auctioneer, at 2:30 in the afternoon of Saturday the 21st, day of July A.D. 1906.

ALL AND SINGULAR the 6th East Quarter of Section Thirty-six (36), Township Fifty-five (55), Range Twenty-one (21) West of the Fourth Meridian, in the Province of Alberta, containing by admeasurement one hundred and sixty (160) acres more or less, being the property of the late James Burgess.

The property will be offered for sale subject to a reserve bid, the purchaser to pay twenty per cent of his bid to the vendor or her Advocates at the time of the sale and the balance within thirty days thereafter into Court to the credit of this cause without interest.

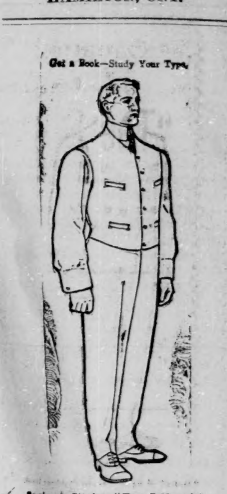

Further particulars may be had from Messrs. Taylor & Boyd, Advocates, Edmonton, Alberta.
Dated at Edmonton this 27th day of June, A.D. 1906.

Meat Inspection and Its Value

(Farmers' Advocate.)

The psychological moment for the establishment of a Canadian meat inspection service seems to have arrived, as a result of "The Jungle" and the upsurge it has caused all over the world. There seems to be many contradictory statements made, and as a consequence the general public is at sea as to the reliability of government meat inspection.

The great difficulty in the way of establishing such a service in Canada just now, is that it would be extremely hard to get men qualified to do the work. No Canadian veterinary college has at any time given training in meat inspection worth mentioning, in fact the standard of veterinary education in Canada is up to the present time quite low, although in spite of that many first class men are graduated as veterinarians, they rise superior to their college environments, examiners' attainments or professors' limited opportunities to impart knowledge. Therefore, although several of our public men are suddenly dismayed at the thought that the steaks and chops they eat may be diseased, a meat inspection branch worthy of the name cannot be built up in a night.

Right here is a splendid opportunity for some of our leading public men or millionaires to do a work for humanity, by endowing a first class veterinary college at which a thorough course in meat inspection would be given.

It is also to be hoped that the V. D. G. will be given time to institute a system of examinations by which he may select the best men and not have inferior chaps dumped in his branch as a result of an M. P. getting close to the minister. It takes a lot of backbone, and a refusal to appoint a fellow with a pull almost amounts to political suicide for a faint-hearted politician, but an occasional suicide that way, would be in the public interest. The B. A. I., that branch of the U. S. department of agriculture having charge of meat inspection, is made up of a pretty good lot of men, but there is no knowing the extent of the politicians' ramifications in the U. S. meat inspection service. The places in which meat inspection is done at Chicago are not as clean as such might be, if more concrete was used in place of wood; no one of course expects a place in which animals are slaughtered to be like a parlor, but there could be a vast improvement made from the standpoint of cleanliness, light and ventilation. The public that visit the yards do not see where the disposal of the diseased

animals is carried on. Meat inspection by the B. A. I., a few years ago at Chicago was only performed on meat for the export trade; meat for consumption at home was inspected (?) by a political party in the Illinois legislature, and the head of the so-called inspection service was not a qualified veterinarian, but a quack; such is likely to happen again or may be the case now. The writer at the time was a postgraduate student at a Chicago college and had opportunities to see much of the work done in connection with meat inspection, a subject which was part of the course being taken, and which necessitated a weekly visit all winter to the stock yards to see the post mortems made of condemned animals. Such post mortems were made in a very dim light, due to lack of windows and a lot of steam, so that the inspections were bound to be less thorough than such should have been. The packing houses, on the whole, may be compared to many slaughter houses, but on a larger scale, and the same objections urged against the ordinary slaughter houses, by those who have agitated for municipal abattoirs, can be reasonably urged against the packing houses. Although the B. A. I. meat inspection system is under the civil service of the U. S., it would be straining one's credulity to ask him to believe that an inspector who would do his work right up to the law, would remain unmolested.

Secretary Wilson, or Tama Jim, as he is affectionately referred to by his Iowa constituents, has, if recent doings in his department are to be considered, gained in competence and lost in virility, in the administration of matters connected with his department. The state recently credited to a Winnipeg veterinarian respecting the prevalence of tuberculosis in cattle slaughtered for the city's consumption, is we believe overdrawn. The unfortunate thing in connection with these meat exposures is that innocent stockmen will suffer; the U. S. export trade in meats can be expected to fall off for a time until people have forgotten the cyclone that struck Packingtown. Meat inspection is of great value to the public, if carried on by a force of properly qualified men, under a good executive head, with power to follow diseased meat to the fertilizer tank, some inspection must be done in clean, well lighted surroundings to have it well done, without which it is useless to attempt it, the public should not be expected to put up money to pay for the acting of a farce.

the future to see the political map that has been made there on the basis of his physiographic map. Less than half a generation after he wrote, the construction of the C. P. R. was in progress, and its lines cover largely the route swept by the Palliser expedition. In one important respect it seemed destined to follow a route the Palliser expedition had not explored. From both sides construction was directed towards the Yellowstone Pass. In 1880 the project of the road was transferred by the government to the present Canadian Pacific Railway company, and the Kicking Horse Pass was eventually selected. Some twenty-two years before (1858) Dr. Hector had discovered it. Unlike most of the mountain ways, it seemed to have been unknown to the Indians. Ascending Bow river to a point near Castle Mountain, he reached the headwaters of the Vermilion, which he traced to its confluence with the Kootenay. The latter he ascended to the divide between it and the Beaverfoot, down which he came to its junction with the Kicking Horse. Near that point Dr. Hector was kicked by a pack horse and laid up a day. The incident gave its name to the stream up which he made his way back over the summit of the main chain, thereby becoming the discoverer of the pass now called by the same name as the river, though it is also known as the Hector Pass, as one of the peaks of the Rockies is known as Hector mountain. The explorer would have rested longer to recover from the effects of the horse kick but that he and his party were on the point of starvation. Game was scarce or it kept to the higher altitudes, whether the party had not time to follow it.

MARCH OF THE MUCK RAKE

Baltimore Sun

The muck-rake subject goes marching on. The poets have Maud Mullerized it, the orators are Champ Clarking it, painters are painting it, and each day may bring forth the intrepid vaudeville man with "Everybody Works the Muck Rake But Father." Out in Kansas City recently the Hon. Jim Ham Lewis talked muck rake to the Knife and Fork club until every full-fledged Missourian in attendance forgot his Baskerville, and ate with his fingers. Prof. Shuler Matthews, of the University of Chicago, also talked in terms of muck rake. President Carroll D. Wright added a link to the endless chain of the controversy with a speech at Clark College, and the debate of the Knox College senior girls at Galesburg, Ill., that night was the pro and con of raking. The country awaits with bated breath to hear from Ypsalanti, Mich., and Biloxi, Miss.; then it is to be hoped that we will have muck raking enough. In the meantime the original status of the muck and the anti-muck rakers remains unchanged. Neither line wavers. An analysis of the contents of the June magazine shows that while the rakers employed by those enlightening organs of civilization, tooth powder and pre-digested infant food, are a little less sensational in their titles, sub-notes, interludes and afterludes, and advertising section postscripts, they had hidden the deadly fangs of the rake under roses and utterances, only that its finished and effective mission of destruction.

LABOR SCARCE IN WEST

Winnipeg Telegram.

"Not for many years has there been such a shortage of labor as this season," said J. J. Golden, provincial commissioner of immigration this morning. "There has been so much railway construction in progress, and the roads are so hard up for men that they are snatching up every available hand. However, even with the railways eliminated, it would be impossible to summon to supply the demands throughout Manitoba and the west for farm help to gather the harvest. Even now we cannot meet the demand, and as the summer advances the cry for help is going to be enormous. My estimate now is that there will be needed at least from 20,000 to 25,000 men to harvest the crops."

DELIGHTED WITH THE WEST.

Ottawa, June 26.—Mr. Bojz, M. P., as president of the western Canada immigration association, received a telegram today from Mrs. Cynthia W. Alden, of New York, and the other four newspaper women from the United States, who have recently made the trip over the C. P. R. to Banff, after attending the Women's Press club meeting in Winnipeg. They express their thanks for the most delightful sightseeing outing they have ever taken. They say the wonderful country and the great hospitality shown all along the line prove that it is not only a good land, but peopled by splendid men and women.

Dr. McQueen Home Again

Rev. Dr. McQueen, pastor of First Presbyterian church, returned yesterday from an extended business and pleasure trip to England and Scotland. He has been absent some three months and is greatly improved in health. He will in all probability occupy his pulpit on Sunday. While absent he visited England and the Hebrides, and spent some time in the Highlands of Scotland.

THE TRADERS BANK OF CANADA

Proceedings of the Twenty-first Annual General Meeting of Shareholders, held at its Temporary Offices, 10 Front St., West, Toronto on Tuesday, the 19th day of June, 1906.

	\$22,100,761 02
	\$27,973,445 77

H. S. STRATHY, General Manager.

The accompanying statement shows the result of the business of the bank for the year ending 31st May, 1906; also its financial position as on that date.

The business of the bank continues to show satisfactory progress. The net profits, 13.21, are in excess of the previous year, when they were 11.44. New business of a most desirable character continues to be offered, and in order to take advantage of the large and growing business offering in the Northwest, and especially at Winnipeg, where results have far exceeded the best expectations of the management, your directors considered it was in the best interests of the bank to increase its capital, under the authority given at a special meeting of the shareholders held on the 17th of April. An allotment of two million dollars was therefore made on the 21st of May in the proportion of two new shares for each three held at the close of business on the first day of June. This allotment was made at 40 per cent. premium, being slightly below the proportion the Bank then bore to Capital, and while it is only two weeks since the allotment was made, it has been most gratifying to the directors to find that subscriptions have already been received for nearly one million dollars, a large proportion of which has been paid and with many shareholders yet to hear from.

At the special meeting of shareholders above referred to the date for holding future annual meetings after the present one was changed by law to the fourth Tuesday in January of each year and as our stock is held almost entirely as investment, it is proposed that dividends hereafter shall be paid quarterly, and in order to bring these into even quarters for the year a dividend for four months will be paid on the first of October and quarterly thereafter on the first of January and each succeeding three months.

Your directors hope to welcome the shareholders at the annual meeting in January next in the new and commodious bank premises now nearing completion on Yonge street. The bank has provided for ample accommodation in the building for future growth and expansion, and your directors have pleasure in stating that the demand for offices is quite equal to the most sanguine expectation. The result accommodation will furnish absolute protection to the bank's securities and it will be gratifying to know that every precaution has been taken in this respect to guard against loss by fire or otherwise.

During the fiscal year just closed nineteen new branch offices have been opened, viz: thirteen in the Province of Ontario, two in Manitoba, including Winnipeg, three in Alberta, including Edmonton and Calgary, and one at Regina, Saskatchewan.

The different offices of the bank continue to receive the usual careful inspection.

C. D. WARREN, President.

The usual resolutions were moved and adopted. The shareholders reported the following gentlemen duly elected to act as directors for the ensuing year, viz: C. D. Warren, Hon. J. R. Stratton, C. Rossier (Guelph), W. J. Sheppard, J. Waubesaene, C. S. Wilcox, (Hamilton), E. F. B. Johnston, K. C. The meeting then adjourned.

At a subsequent meeting of the newly-elected directors Mr. C. D. Warren was re-elected President, and Hon. J. R. Stratton Vice-President by a unanimous vote.

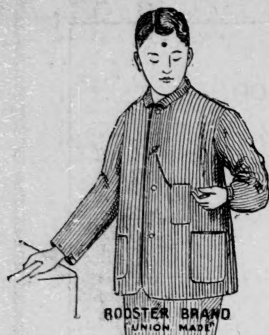

The Traders' Bank of Canada, Toronto, June 19th, 1906.

The following comparative statement will show the progress of the bank from 31st May, 1897—

As on 31st May	Capital Paid Up	Reserve	Deposits	Circulation	Assets	Dividend
1897	\$700,000	\$40,000	\$4,325,331	\$676,195	\$5,886,855	6
1898	700,000	50,000	4,930,817	697,683	6,828,500	6
1899	700,000	70,000	5,561,112	680,925	7,338,363	6
1900	1,000,000	150,000	6,528,674	987,443	9,177,661	6
1901	1,344,423	250,000	7,672,591	1,192,470	10,446,449	6
1902	1,350,000	350,000	8,890,430	1,337,666	12,734,836	6
1903	1,500,000	700,000	10,381,652	1,439,519	14,759,572	7
1904	2,000,000	700,000	12,214,295	1,863,963	18,779,533	7
1905	2,996,715	1,190,000	15,849,740	2,111,350	22,339,016	7
1906	3,960,000	1,350,000	20,499,872	2,310,125	27,973,445	7

THE SPORTING WORLD

First Game of Series

Goes to Calgary

Poor Stick Work and Plenty of Errors
Loses for Edmonton. Nutt and Brennan Perform To-Night

Calgary, June 27.—(Special to the Bulletin)—Edmonton was defeated in a close but uninteresting game tonight in which the Edmonton team hardly played up to form, making six errors and being weak with the stick, ten men striking out. The score was: Calgary six, Edmonton five. Calgary played but little better, being somewhat worse in the field, but better at bat. Edmonton got a lead of two in the first inning on Deton's single, followed by a clean home run by Berry; Symons also singled, but after that Edmonton did not get a single hit until the fifth and only one until the seventh. Calgary evened up in the second half of the first, when Ford got down on Symons' error and Rochon made the circuit on a long hit. Calgary scored three in the fifth on a double of three singles on an error by Grady. Another in the sixth on base on balls, a single and two errors. Edmonton scored two in the seventh after two men were out, on two singles, steal and an error. In the ninth Dolson got first on an error and all the way home on another. Next three batters fanned, Deton made two hits, Barry, Symons, Maloney and Grady one each. Calgary battery, Crist and Ford; Edmonton, Vining and Grady. Brennan has not reached Calgary yet, but is expected today. Nutt, the new pitcher, is here and will pitch this afternoon or evening.

COPPER-NORTHERN BALL.
Yesterday's games: Winnipeg 5, Calumet 4, 4 innings; Houghton 1, Fargo 0, 13 innings; Duluth 6, Hancock 3; Lake Linden 7, Grand Forks 6.

Red Deer, June 28.—Joe Northy who played left field on last year's team, has returned to this part of the country and will sport the colors once more.

The Red Deer intermediate baseball team are looking for games. The expected ball game between Red Deer and Wetaskiwin last week did not come off.

Word has been received that Calgary will attend the baseball tournament here July 2nd. Edmonton and Strathcona will not attend.

Medicine Hat News: D. T. Flavin received this week an offer from the Northern Baseball League to officiate as umpire in the games at a salary of \$125 and expenses. Dan is holding out for more money, and his experience and ability warrant him in the stand he is taking.

BIG RACES IN SIGHT

The stables at the exhibition grounds are rapidly filling up with some of the best horseflesh in the country. Each day there are new arrivals, and the track is in constant use by the trainers, who are getting their animals into shape preparatory to the great race meet which will happen next week. The entries are numerous beyond expectation, and in all classes there will be a star bunch of horses. Yesterday A. J. Robinson, after nine days on the road, arrived from Brandon with two runners, which have been hitting a fast clip in Manitoba. These are Rosarie and Strike-a-Light. Cotton, from Medicine Hat, got off the train from the south with a runner and a pacer, which have also been raising the dust in the prairie province. His pacer is Billy R., and his runner goes by the name of Whistling Rufus. Simons followed with his Etta N. This morning saw the arrival of three runners from Lacombe, these being owned by Winters, and known as Time Table, Lady Turner and Mary L. Chapell, from Regina, occupies a good part of the big stables with nine of his best.

Seattle bookmakers are receiving commiseration because a gang passed had money on them. Just as if they had not already passed it back to the public.

The Vancouver World says: Two Mongolian boxers in Chinatown want to appear at the English Bay club. They made their request to the committee through their press agent, Mr. Dam Li, who is said to be a pipe dream artist of the smokest yellow.

Edmontonian Lacrosseists

Badly Defeated Yesterday

Seona Gang Keep Up their Winning Streak By Putting It all Over a Combination Edmonton-Capital Team

Edmonton's picked team of stick-handlers failed to make good last night when they went up against the Strathcona seniors on the Strathcona exhibition grounds. The game was for blood, all right, but the disadvantage the Edmonton boys had from picking a team from the Capitals and Edmontonians was that they had had no team practice whatever. Consequently they were put in a back seat last night by a score of 8 to 1. The game was good enough in a way, but every shot the home men across the river made, went into the net, sure, for the Edmonton goal tender was never born for a goal keeper. The defense of the visitors played their usual star lacrosse, and the home players did a few good stunts. But Humston and the rest of the scorers on the other side set the pace and kept it up.

The first score was made by Sammie in 7½ minutes, and P. Mann, in one other minute tossed it in also. Elliott did a 60-second stunt, but the next time it took him 12 minutes. Then Bluet took away for Edmonton's only, and had the sphere in the meshes in one minute. Humston got into line for the next four, which were scored in 8 minutes, 2 minutes, 13 minutes and 10 minutes, respectively. Thus the game finished. The line-up was as follows:—

Strathcona. (Goal.)	Edmonton.
McArthur	Leggatt
Point.	
Campbell	Glass
Cover.	
Cameron	Morris
Defence Field.	
Richards	McQueen
N. Mann	Leask
Bissett	Bristow
Centre.	
McCulloch	Bluet
Home Field.	
Laidlaw	Sheppard
Hornby	Bolander
Elliott	McLaughlin
Outside Home.	
Humston	Powers
Inside Home.	
P. Mann	Banford

LACROSSE PRACTICE TO-NIGHT.

The following players are requested to turn out to practice on the baseball grounds this evening as early as possible: Bristow, Leggatt, Glass, McQueen, Watkins, Morris, Thompson, Leask, Bolander, Sheppard, Maloney, McGee, Banford, McLaughlin, C. Banford, Saul, Anderson, Bluet, Keir and any others whose name does not appear in the above list.
